# INSTALL OJS (OPEN JOURNAL SYSTEM)

# online

Instalasi bagi yang sudah mempunyai hosting online, Biasanya pihak puskom sudah menginstall OJS. Bagi yang belum terinstall OJS, maka yang dibutuhkan adalah login pada hosting tersebut dan melakukan langkah-langkah berikut >>> klik

# offline

Instalasi OJS via offline biasanya digunakan untuk latihan pengelolaan OJS

Bahan untuk instalasi OJS offline

1. Server pada laptop / pc, dapat menggunakan XAMPP

Link unduh xampp :

<https://www.apachefriends.org/index.html>

2. Aplikasi OJS

Link unduh OJS :

[https://pkp.sfu.ca/ojs/ojs\\_download](https://pkp.sfu.ca/ojs/ojs_download)

OJS yang akan saya install :

versi 2.4.8 dan versi 3.0

MENU

# Langkah-langkah xampp

The screenshot shows the XAMPP website with several red annotations. A red box highlights the URL `https://www.apachefriends.org/index.html` in the browser's address bar, with a red arrow pointing to the text **situs unduh xampp**. Another red box highlights the 'XAMPP for Windows' download button, with a red arrow pointing to the text **unduh/klik untuk mendownload xampp**. The website content includes a 'What is XAMPP?' section, a video player with the XAMPP logo, and three download buttons for Windows, Linux, and OS X.

**situs unduh xampp**

**unduh/klik untuk mendownload xampp**

**What is XAMPP?**

XAMPP is the most popular PHP development environment

XAMPP is a completely free, easy to install Apache distribution containing MariaDB, PHP, and Perl. The XAMPP open source package has been set up to be incredibly easy to install and to use.

**Download**  
Click here for other versions

**XAMPP for Windows**  
v5.6.24 (PHP 5.6.24)

**XAMPP for Linux**  
v5.6.24 (PHP 5.6.24)

**XAMPP for OS X**  
v5.6.24 (PHP 5.6.24)

## OJS Installation

## OJS Version 2.4.8.1

Thank you for downloading the Public Knowledge Project's **Open Journal Systems**. Before proceeding, please read the [README](#) file included with this software. For more information about the Public Knowledge Project and its software projects, please visit the [PKP web site](#). If you have bug reports or technical support inquiries about Open Journal Systems, see the [support forum](#) or visit PKP's online [bug reporting system](#). Although the support forum is the preferred method of contact, you can also email the team at [pkp.contact@gmail.com](mailto:pkp.contact@gmail.com).

## Upgrade

If you are upgrading an existing installation of OJS 2.x, [click here](#) to proceed.

## Recommended system requirements

- [PHP](#) >= 4.2.0 (including PHP 5.x); you are currently using PHP 5.6.3
- [MySQL](#) >= 4.1 or [PostgreSQL](#) >= 7.1 (including PostgreSQL 8.x)
- [Apache](#) >= 1.3.2x or >= 2.0.4x or Microsoft IIS 6
- Operating system: Any OS that supports the above software, including [Linux](#), [BSD](#), [Solaris](#), [Mac OS X](#), [Windows](#)

As PKP does not have the resources to test every possible combination of software versions and platforms, no guarantee of correct operation or support is implied.

### Database Settings

OJS requires access to a SQL database to store its data. See the system requirements above for a list of supported databases. In the fields below, provide the settings to be used to connect to the database.

Database driver

MySQL

**Database drivers listed in brackets do not appear to have the required PHP extension loaded and installation will likely fail if selected.**

Any unsupported database drivers listed above are listed only for informational purposes and are unlikely to work.

Host

localhost

Leave the hostname blank to connect using domain sockets (if supported by your OS). This is not necessary with MySQL, which will automatically use sockets if "localhost" is entered, but is required with some other database servers such as PostgreSQL.

Username

ojs

Password

.....

Database name

ojs

**kosong kan**

## MENU

ojs requires access to a SQL database to store its data. See the system requirements above for a list of supported database systems. Provide the settings to be used to connect to the database.

Database driver

MySQL

**Database drivers listed in brackets do not appear to have the installation will likely fail if selected.**

Any unsupported database drivers listed above are listed solely for access to the database.

Host

localhost

Leave the hostname blank to connect using domain sockets instead of a network interface. If "localhost" is entered, but is required as PostgreSQL.

Username

root

Password

### 1.3 Technical Support Contact

This person will be listed on the journal's Contact page for the use of editors, authors, and reviewers, and should have experience of its roles. As this journal system requires very little technical support, this should be seen as a part-time assignment. There may be difficulties with the instructions or file formats, or there's a need to ensure that the journal is regularly backed up on the

1. DETAILS 2. POLICIES 3. SUBMISSIONS 4. MANAGEMENT 5. THE LOOK

### 2.1 Focus and Scope of Journal

Enter a statement below, which will appear in About the Journal, that speaks to authors, readers, and librarians about the range of

**diisi sesuai dengan  
ketentuan masing-  
masing jurnal**

### 2.2 Peer Review

Outline the journal's peer review policy and processes for readers and authors, including the number of reviewers typically used in, are asked to judge submissions, typical time taken to conduct the reviews, and the principles for recruiting reviewers. This will app

Review Policy

## Review Guidelines

The Review Guidelines will provide reviewers with criteria for judging a submission's suitability for publication in the journal, and can include effective and helpful review. In conducting the review, reviewers are presented with two open text boxes, the first for author and editor. The Journal Manager can create a peer review form under [REVIEW FORMS](#). In all cases, editors will have the option of including the reviews

diisi sesuai  
ketentuan masing-  
masing jurnal

## Review Process

OJS supports two models for managing the review process. The Standard Review Process is recommended because it steps reviewers through history for each submission, and takes advantage of automatic reminder notification, and standard recommendations for submissions (Accept; Submit elsewhere; Decline; See comments).

Select one of the following:

- ☒ **Standard Review Process**  
Editors will email selected Reviewers the title and abstract of the submission, as well as an invitation to log into the journal web site to agree to do the review, to download submissions, submit their comments, and select a recommendation.
- ☐ **Email-Attachment Review Process**  
Editors send Reviewers the request to review with the submission attached to the email. Reviewers email editors their assent (or recommendation). Editors enter Reviewers' assent (or regrets), as well as the review and recommendation on the submission's Review page.

## Review Options

batas waktu

### Review Time

The typical period of time allowed for reviews:  weeks

Note: Can be modified during the editorial process.

### Reviewer Reminders

Automated email reminders available in OJS's default Email template can be sent to reviewers at two points (while the editor can always email the reviewer).

☐ If reviewer has not responded to a review request within  days.

☐ If reviewer has not submitted a recommendation within  days after review's due date.

**Note:** To activate these options, the site administrator must enable the `scheduled_tasks` option in the OJS configuration file. Additional settings for the scheduled tasks can be found in the `config.inc.php` file.

pengingat otomatis

#### Reviewer Ratings

- ☒ Editors will rate reviewers on a five-point quality scale after each review.

#### Reviewer Access

- ☐ Enable one-click reviewer access.

**Note:** The email invitation to reviewers will contain a special URL that takes invited reviewers directly to the Reviewer login page (to log in). For security reasons with this option, editors are not able to modify email addresses or add CCs or BCC.

- ☐ Reviewers will have access to the submission file only after agreeing to review it.

#### Blind Review

- ☒ Provide links to [ENSURING A BLIND REVIEW](#) on pages where authors and reviewers upload files.

**rating untuk reviewer**

**review sama-sama tidak kenal dengan penulis**

## 2.3 Privacy Statement

The names and email addresses entered in this journal site will be used exclusively for the stated purposes of this journal and will not be made available for any other purpose or to any other party.

## 2.4 Editor Decision

- ☐ When using the Notify Author email, include the email addresses of all co-authors for multiple-author submissions.

Open Journal Systems supports the [LOCKSS](#) (Lots of Copies Keep Stuff Safe) system to ensure secure and permanent preservation of your journal in a LOCKSS network:

#### PKP Private LOCKSS Network

Any OJS journal that has an ISSN and has published at least one article can choose to agree to the terms of use and be preserved.

To join, go to [Generic Plugins](#), find PKP PLN Plugin, select Enable, and then select Settings, and accept the Terms of Use. Your co-ordinator's further action is required.

#### Other LOCKSS Networks

If you believe you have access to one or more of the LOCKSS networks listed [here](#), please contact the appropriate LOCKSS Network. The form below will allow for inclusion of your journal in those networks. *No content will be preserved before you have notified the appropriate LOCKSS Network.*

☐ Enable LOCKSS to store and distribute journal content at participating libraries via a LOCKSS [Publisher Manifest](#) page. A LOCKSS Manifest is required for Archiving:

This journal utilizes the LOCKSS system to create a distributed archiving system among participating libraries and permits those libraries to create permanent archives of the journal for purposes of preservation and restoration. <a href="http://www.lockss.org/">More...</a>

See [other versions of a LOCKSS license](#).

## 2.7 Potential Reviewer Database

Add to the Select Reviewer page a link to a relevant literature database that can be searched for potential reviewers and is open to all.

## Step 3. Guiding Submissions

1. DETAILS 2. POLICIES 3. SUBMISSIONS 4. MANAGEMENT 5. THE LOOK

### 3.1 Author Guidelines

Set out for authors the bibliographic and formatting standards used for items submitted to the journal (e.g., *Publication Manual of the American Psychological Association*, 2001). It is often helpful to provide examples of the common citation formats for journals and books to be used in submissions. Also identify (e.g., data-sets, research instruments, etc.) which authors should be encouraged to upload, in addition to their submission, to enhance re-

**diisi sesuai dengan  
kebijakan jurnal  
masing-masing**

Submission Preparation Checklist

## 3.2 Permissions

### Copyright Notice

The Copyright Notice will appear in **About the Journal**. It should describe for readers and authors whether the copyright holder is the author, journal, or a t additional licensing agreements (e.g. **CREATIVE COMMONS** licenses) that grant rights to readers (see [EXAMPLES](#)), and it should provide the means for securi the use of the journal's content.

**penggunaan hak cipta, dapat menggunakan situs creativecommons yang akan dijelaskan pada tampilan**

Copyright Holder

- ☐ Author  
☐ Journal (JURNAL LATIHAN UNILA)  
☐ Other

Base new article's copyright year on

- ☐ Issue (Default year will be drawn from the issue's publication date.)  
☐ Article (Default year will be drawn from the article's publication date, as in "publish-as-you-go".)

Prior Agreement

☐ Require authors to agree to the Copyright Notice in the submission process.

Display

☐ Display the copyright statement with content (advisable for asserting an author-held copyright).

License URL

Other

Provide URL for license webpage, if available.

Display

☐ Display the license with published work.

### 3.4 For Authors to Index Their Work

OJS adheres to the [Open Archives Initiative](#) Protocol for Metadata Harvesting, which is the emerging standard for providing well-indexed scale. The authors will use a similar template to provide metadata for their submission. The Journal Manager should select the categories examples to assist them in indexing their work, separating terms with a semi-colon (e.g., term1; term2). The entries should be introduced

#### **di ceklis dan diisi sesuai dengan kebutuhan**

##### Academic Discipline and Sub-Disciplines

Useful when journal crosses disciplinary boundaries and/or authors submit multidisciplinary items.

Provide examples of relevant academic disciplines for this journal:

(E.g., History; Education; Sociology; Psychology; Cultural Studies; Law)

##### Subject Classification

Title

URL

(E.g., Mathematics Subject Classification; Library of Congress Classification)

##### Keywords

Provide examples of keywords or topics as a guide for authors:

(E.g., Photosynthesis; Black Holes; Four-Color Map Problem; Bayesian Theory)

##### Coverage

Refers to geo-spatial location, chronological or historical coverage, and/or characteristics of research sample.

Provide examples of relevant geo-spatial or geographical terms for this field:

(E.g., Iberian Peninsula; Stratosphere; Boreal Forest; etc.)

Provide examples of relevant chronological or historical terms for this field:

(E.g., European Renaissance; Jurassic Period; Third Trimester; etc.)

Provide examples of research sample characteristics for this field:

(E.g., Age; Gender; Ethnicity; etc.)

##### Type (Method/Approach)

Provide examples of relevant research types, methods, and approaches for this field:

## Connector

## Registration

No Items

### Citation Checking

You must also enable and configure connections to external citation databases. This helps you to find errors in authors' citation required for electronic publishing or deposit.

We provide connectors to several external databases in which you can search for citations. Some of these databases require a refer to the public websites of the databases for further information on how to register. You can add one or several databases.

You can edit or delete an existing external database connection by clicking the gear icon next to it.

**Note:** In order for the citation checking process to complete in a timely manner, the `citation_checking_max_processes` dir value. See the General Settings section in `config.inc.php` for more information.

### Citation Database Connectors

## Connector

## Registration

No Items

### Citation Output

Choose the citation style that is being used in your publication's submissions. The Citation Markup Assistant lets you compare it from the XML you are generating so that you can easily spot errors:

### Additional Site and Article Access Restrictions

- ☐ Users must be registered and log in to view the journal site.
- ☐ Users must be registered and log in to view open access content.

### User Registration

- ☒ Users can register themselves with the journal in one or more of the following roles:
  - ☒ Readers (will receive notifications and be counted as equivalent to a subscriber)
  - ☒ Authors (can submit materials to the journal)
  - ☒ Reviewers (available for reviewing submissions)
- ☐ Journal Manager registers all users, with Editors or Section Editors able to register Reviewers alone.

## 4.2 Publication Scheduling

**diisi sesuai dengan kebutuhan**

### Publication Schedule

Journal items can be published collectively, as part of an issue with its own Table of Contents. Alternatively, individual items can be the "current" volume's Table of Contents. Provide readers, in About the Journal, with a statement about the system this journal will

Format

## Format

The journal will use the following elements to identify issues (which can be overridden for individual issues).

- ☐ Volume
- ☐ Number
- ☐ Year
- ☐ Title

**diceklis**

## Starting Point and Frequency

Set the initial issue/volume numbers and year for the first publication of the journal, as well as intended frequency for issue/volumes.

- Number
- Volume
- Year
- Issues per volume
- Volumes per year

**diisi sesuai dengan  
ketentuan jurnal  
masing-masing**

Note: Leave items blank if not used with this journal, and editors can re-set numbers in the publishing process.

## 4.3 Identification of Journal Content

### Unique Identifier

Articles and issues can be tagged with an identification number or string, employing a registration system such as the Digital Object to

- ☐ Custom identifiers will be used to identify issues.
- ☐ Custom identifiers will be used to identify published items.
- ☐ Custom identifiers will be used to identify galley (e.g. HTML or PDF files) for published items.
- ☐ Custom identifiers will be used to identify supplemental article files.

**ceklis semua**

**ceklis agar bisa diisi secara manual  
menumoran halaman nya**

### Page Number Option

- ☐ Page numbers for items will be calculated and entered manually in the Table of Contents (e.g., 13-26).

## 4.4 Announcements

Announcements may be published to inform readers of journal news and events. Published announcements will appear on

- ☒ Enable Journal Managers to add journal announcements.
- ☒ Display  of the most recent announcements on the journal homepage.

### Additional Information

Enter any additional information that should be displayed to readers on the Announcements page.

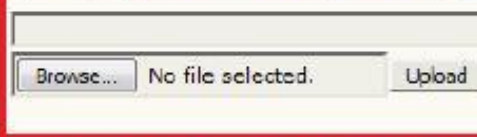

**INFORMASI TAMBAHAN, BIASANYA  
BERISIKAN CALL FOR PAPER**

## Layout Templates

Template ~~can be uploaded to express in layout for~~ each of the standard formats published in the journal (e.g., article, book review, etc.) annotation ~~is added specifying font, size, margins, etc. to serve as a guide for Layout Editors and Proofreaders.~~

Title

Template File

## Reference Linking

To enable readers to locate online versions of the work cited by an author, the following options are available.

### 1. Add a Reading Tool

The Journal Manager can add "Find References" to the Reading Tools that accompany published items, which enables readers to p pre-selected scholarly databases for the cited work.

### 2. Embed Links in the References

The Layout Editor can add a link to references that can be found online by using the following instructions (which can be edited).

Provide Layout Editors with instructions.

## Layout Instructions for Reference Linking

```
<h4>To Add Reference Linking to the Layout Process</h4>
<p>When turning a submission into HTML or PDF, make
sure that all hyperlinks in the submission are active.</p>
<h4>A. When the Author Provides a Link with the
Reference</h4>
<ol>
<li>While the submission is still in its word processing
format (e.g., Word), add the phrase VIEW ITEM to the end of the
reference that has a URL.</li>
<li>Turn that phrase into a hyperlink by highlighting it and
using Word's Insert Hyperlink tool and the URL prepared above.
</li>
</ol>
```

**TEMPLATE UNTUK LAYOUT, FILE KETENTUAN  
TERSEBUT BISA DIUPLOAD DI SINI**

## 4.7 Proofreaders

Select one:

- ☐ A Proofreader will be assigned to check (along with the authors) the galleys prior to publication.
- ☒ An Editor or Section Editor assigned to the submission will check the galleys.

### Proofing Instructions

The Proofreading Instructions will be made available to Proofreaders, Authors, Layout Editors, and Section Editors. The instructions are in HTML, which can be edited or replaced by the Journal Manager at any point (in HTML or plain text).

<p>The proofreading stage is intended to catch any errors in the galley's spelling, grammar, and formatting. More substantial changes cannot be made at this stage, unless discussed with the Section Editor. In Layout, click on VIEW PROOF to see the HTML, PDF, and other available file formats used in publishing this item.</p>  
<h4>For Spelling and Grammar Errors</h4>  
  
<p>Copy the problem word or groups of words and paste them into the Proofreading Corrections box with "CHANGE-TO" instructions to the editor as follows:</p>  
  
<pre>1. CHANGE...

# Plugin Management

This page allows the Journal Manager to review and potential installed. Plugins are divided into categories, according to the within each category, its current set of plugins.

- [Metadata Plugins](#)
- [Authorization Plugins](#)
- [Block Plugins](#)
- [Citation Format Plugins](#)
- [Citation Database Connector Plugins](#)
- [Citation Output Plugins](#)
- [Citation Extraction Plugins](#)
- [Gateway Plugins](#)
- [Generic Plugins](#)
- [Implicit Authentication Plugins](#)
- [Import/Export Plugins](#)
- [OAI Metadata Format Plugins](#)
- [Payment Plugins](#)
- [Public Identifier Plugins](#)
- [Report Plugins](#)
- [Theme Plugins](#)
- [Install A New Plugin](#)

klik

[ENABLE](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

- Browse

This plugin enables the browsing by sections and/or their identify types.

[ENABLE](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

- COinS Plugin

The COinS plugin adds an OpenURL descriptor to article pages (abstract and HTML) that can be used e.g. for extraction to citation tools.

[ENABLE](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

- Custom Block Manager

This Plugin lets you manage custom sidebar blocks. You can edit the blocks in the settings of each plugin that you create here.

[ENABLE](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

- Custom Locale Plugin

**klik hingga berubah menjadi disable**

This plugin enables customization of the default user interface text used by OJS.

[ENABLE](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

- Dataverse Plugin

Dengan demikian,

## Generic Plugins

Generic plugins are used to extend Open Journal Systems in a variety of ways that are not supported by the other plugin categories.

- Acron Plugin

**setelah itu pilih dan klik setting pada custom block manager**

This plugin attempts to reduce the dependance of OJS on periodic scheduling tools such as 'cron.'

[DISABLE](#) [RELOAD SCHEDULED TASKS](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

- Custom Block Manager

This Plugin lets you manage custom sidebar blocks. You can edit the blocks in the settings of each plugin that you create here.

[SETTINGS](#) [DISABLE](#) [UPGRADE PLUGIN](#) [DELETE PLUGIN](#)

## Custom Block Manager

You can use this plugin to add or delete custom block plugins. You can then edit the content through the [System Plugins](#) page (in the Blocks Plugin section). To place your plugin in the desired location in the sidebar, go to [Setup step 5.6](#)

| BLOCK NAME   | ACTION |
|--|--------|
| <input type="text" value="ADDITIONAL MENU"/>   |        |
| <input type="button" value="Add Block"/> <input type="button" value="Save"/> <input type="button" value="Cancel"/> |        |

Fla

## YOUR HTML CODE

Thank you for creating a free Flag Counter!

Your use of this code signifies your acceptance of our [Terms of Service](#).

 Please do not use your counter in email messages.

We have provided two versions of our code, customized with your selections. The first is an HTML code for websites, and the second is a code for posting to forums. Just copy and paste this to your website's source code wherever you'd like your Flag Counter to appear. Flag Counters are just images, so they will work on any website.

**copy kan ke footer**

Code for websites (HTML):

```
<a href="http://info.flagcounter.com/Z03K"></a>
```

Copied to clipboard!

Code for forums:

```
[URL=http://info.flagcounter.com/Z03K][IMG]http://s07.flagcounter.com/count2/Z03K/bg_FFFFFFFF/bx_000000/border_CCCCCC/colu
```

Copy

Here is how the counter you created looks:

[USER HOME](#)

[SEARCH](#)

[CURRENT](#)

[ARCHIVES](#)

[ANNOUNCEMENTS](#)

[Home](#) > [User](#) > [Journal Management](#) > [Reading Tools](#) > **[Reading Tool Options](#)**

## Reading Tool Options **tempat untuk mengaktifkan**

The reading tools appear in a frame beside published items in the sections of the journal that have been designated for indexing. The reading tools consist of a set of optional tools related to the published item, listed below, and a set of tools that provide access to related items, organized by field and discipline.

☒ Enable Reading Tools for designated sections of journal.

**ceklist dan save...**

## Journal Item Tools

- ☒ Abstract (presents the item's abstract).
- ☒ How to cite item (provides bibliographic detail for item).
- ☒ Indexing metadata (displays item's indexing metadata provided by author and system).
- ☒ Supplementary files (displays list of files author included with submission).
- ☒ Print version (provides a printer-friendly version of an item).
- ☒ Look up terms (enables readers to double-click on any word in an item and send the word to a dictionary).
