

# INSTALASI OJS

Disampaikan oleh:

**KHOIRUL FATHONI, M.E**

(Staf Administrasi Rumah Jurnal IAIN Ponorogo)

**"Berbagi Bersama Giatkan Publikasi"**

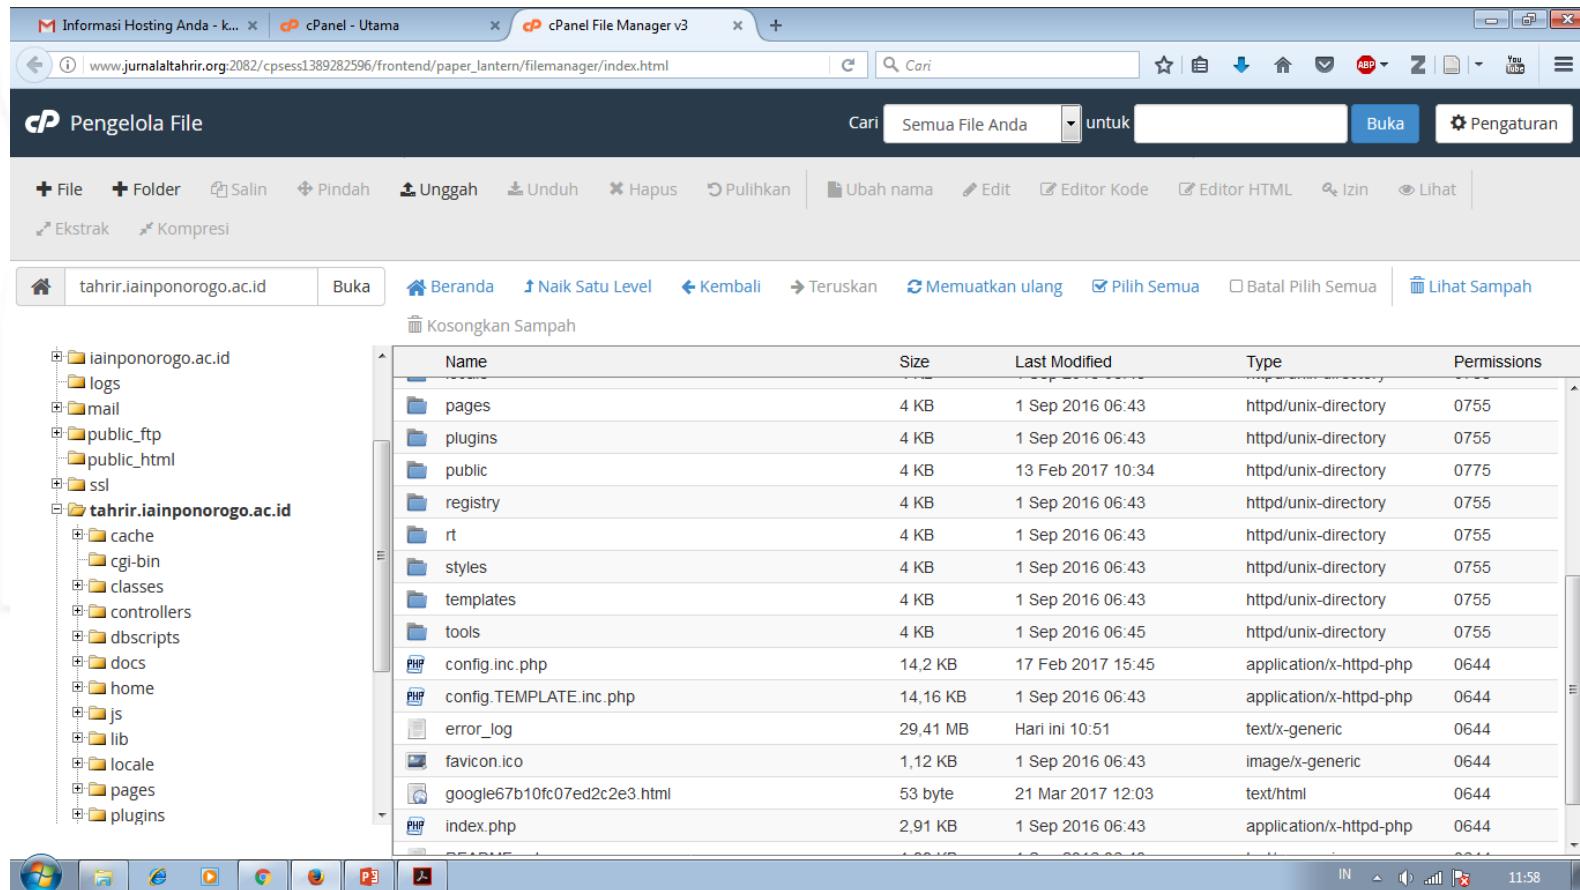

## Yang diperlukan:

- Software: Gratis. Download di alamat:  
<http://pkp.sfu.ca/?q=ojs>
- Pilih versi sesuai selera. Diutamakan pilih versi terbaru
- Domain dan Hosting

# Proses Instalasi:

- Masuk ke Cpanel
- Cari file manager
- Cari folder public\_html
- Unggah file ojs yang sudah didownload
- Ekstrak file ojs di folder public\_html
- Tambahkan folder baru dengan nama “files”

# Gambarnya seperti ini:

- Masuk ke menu utama Cpanel
- Cari Database MYSQL
- Buat database baru
- tambahkan user baru dan paswordnya
- Ingat nama database, user dan password

# Berikut gambarnya:

The screenshot shows the MySQL Database section of the cPanel interface. At the top, there's a navigation bar with tabs for Informasi Hosting Anda, cPanel - Utama, www.jurnalalahrir.org / lo..., cPanel - Database MySQL®, and cPanel File Manager v3. The main title is "Database MySQL®". A sidebar on the left has icons for Home and MySQL.

**Buat Database Baru**

**Database Baru:**  **Buat Database**

**Ubah Database**

**Periksa Database**:  **Periksa Database**

**Perbaiki Database**:  **Perbaiki Database**

At the bottom, there's a taskbar with various icons and system status indicators (IN, 12:06).

"Berbagi Bersama Giatkan Publikasi"

Screenshot of the cPanel MySQL User Management interface. The URL in the browser is [www.jurnalaltahir.org:2082/cpsess1389282596/frontend/paper\\_lantern/sql/index.html#mysqlusers](http://www.jurnalaltahir.org:2082/cpsess1389282596/frontend/paper_lantern/sql/index.html#mysqlusers).

The page title is "Pengguna MySQL". A sub-section title "Tambah Pengguna Baru" is visible. The form fields include:

- Nama pengguna:**
- Kata sandi:**
- Kata sandi (Lagi):**
- Kekuatan:**  Pembuat Kata Sandi
- Buat Pengguna**

At the bottom, there is a link "Tambahkan Pengguna Ke Database" and a taskbar with various icons.

## Selanjutnya:

- Edit config.inc.php di dalam folder public\_html
- Pastikan general setting: installed=off
- Pada Database setting: rubah nama database, user dan pasword yang sudah dibuat
- Pada File Setting: rubah sesuai nama folder yang ditambahkan di dalam public\_html, yaitu “files”

# Berikut gambarnya:

The screenshot shows a Windows desktop environment. At the top, there is a taskbar with several icons: Start, File Explorer, Internet Explorer, Google Chrome, Mozilla Firefox, and others. The main window is a web browser displaying a file editor interface for 'config.inc.php'. The address bar shows the URL 'www.jurnalaltahir.org:2082/cpsess1389282596/frontend/paper\_lantern/filemanager/editit.html?file=config.inc.php&'. The file content is a PHP configuration file for OJS. A specific line, 'installed = Off', is highlighted in blue. The browser window has a standard header with tabs for 'Informasi Hosting Anda ...', 'cPanel - Utama', 'www.jurnalaltahir.org / ...', 'cPanel - Database MySQL...', 'cPanel File Manager v3', and 'config.inc.php - cPanel ...'. Below the tabs, it says 'Mengedit: /home/jurnalal/tahirr.ia Pengkodean: utf-8'. There are buttons for 'Buka ulang', 'Gunakan Editor Kode', 'Tutup', and 'Simpan Perubahan'.

```
; config TEMPLATE.inc.php
;

; Copyright (c) 2003-2016 John Willinsky
; Distributed under the GNU GPL v2. For full terms see the file docs/COPYING.
;
; OJS Configuration settings.
; Rename config TEMPLATE.inc.php to config.inc.php to use.
;
;
;::::::::::::::::::;
;
; General Settings ;
;::::::::::::::::::;

[general]

; Set this to On once the system has been installed
; (This is generally done automatically by the installer)
installed = Off

; The canonical URL to the OJS installation (excluding the trailing slash)
base_url = "http://jurnalaltahir.org"

; Session cookie name
session_cookie_name = OJSSSID

; Session cookie path; if not specified, defaults to the detected base path
; session_cookie_path = /

; Number of days to save login cookie for if user selects to remember
; (set to 0 to force expiration at end of current session)
```

The screenshot shows a Windows desktop environment. At the top, there is a taskbar with several icons: Start, File Explorer, Internet Explorer, Google Chrome, Mozilla Firefox, and others. The system tray shows the date and time as 12:18. In the center, a web browser window is open, displaying the configuration file 'config.inc.php' from the cPanel File Manager. The file content is as follows:

```
; source for debugging or if you are working off a development branch without compiled JavaScript.  
enable_minified = On  
  
; Provide a unique site ID and OAI base URL to PKP for statistics and security  
; alert purposes only.  
enable_beacon = Off  
  
;;;;;;;;;  
; Database Settings ;  
;;;;;;;;;  
  
[database]  
  
driver = mysql  
host = localhost  
username = contoh  
password = 123456789  
name = contohsaja  
  
; Enable persistent connections  
persistent = Off  
  
; Enable database debug output (very verbose!)  
debug = Off  
  
;;;;;;;;;  
; Cache Settings ;  
;;;;;;;;;  
  
[cache]  
  
; Choose the type of object data caching to use. Options are:  
; - memcache: Use the memcache server configured below
```

A screenshot of a Windows desktop environment. At the top, there is a taskbar with several icons: Start, File Explorer, Internet Explorer, Google Chrome, Mozilla Firefox, and others. Below the taskbar is a system tray showing battery status, signal strength, and the time (12:19). The main window is a web browser displaying the configuration file for a Joomla site. The address bar shows the URL: [http://www.jurnalaltahir.org:2082/cpsess1389282596/frontend/paper\\_lantern/filemanager/editit.html?file=config.inc.php&edit=1](http://www.jurnalaltahir.org:2082/cpsess1389282596/frontend/paper_lantern/filemanager/editit.html?file=config.inc.php&edit=1). The browser title bar says "config.inc.php - cPanel ...". The page content is the PHP configuration file (config.inc.php) for the Joomla application:

```
charset_normalization = Off
;;;;;;;;;;
; File Settings ;
;;;;;;;;;

[files]
; Complete path to directory to store uploaded files
; (This directory should not be directly web-accessible)
; Windows users should use forward slashes
files_dir = files

; Path to the directory to store public uploaded files
; (This directory should be web-accessible and the specified path
; should be relative to the base OJS directory)
; Windows users should use forward slashes
public_files_dir = public

; Permissions mask for created files and directories
umask = 0022

;;;;;;;;;;
; Fileinfo (MIME) Settings ;
;;;;;;;;;

[finfo]
; mime_database_path = /etc/magic.mime

;;;;;;;;;;
; Security Settings ;
;;;;;;;;;
```

## Selanjutnya:

- Panggil alamat domain anda di browser
- Di Locale Setting: Pilih bahasa yang akan diinstal, misalnya English (default) plus Indonesia
- File Setting: tentukan lokasi dimana file-file dokumen artikel akan disimpan
- Administrator Account: tentukan user super admin dari portal e-journal tersebut, terdiri dari: username, password, dan email.

- Database Setting: terdiri dari: database driver (mysql), Host (localhost), username, password, dan database name yang tadi sudah dibuat
- Terakhir klik “Instal Open Journal System”, dan selesai
- Edit kembali config.inc.php, pastikan pada general setting: installed=on

# Tampilan awal setelah instalasi:

The screenshot shows a Firefox browser window with several tabs open. The active tab displays the Open Journal Systems (OJS) homepage. The page has a green header bar with the title "Open Journal Systems". Below the header, there is a navigation menu with links for HOME, ABOUT, LOGIN, REGISTER, and SEARCH. To the right of the menu, there is a link to "OPEN JOURNAL SYSTEMS" and another to "Journal Help". The main content area displays the message "There are no journals available." and "0 - 0 of 0 Items". On the right side of the page, there is a "USER" login form with fields for "Username" and "Password", a "Remember me" checkbox, and a "Login" button. Below the login form, there is a "LANGUAGE" selection dropdown set to "English". At the bottom right, there is a "JOURNAL CONTENT" section with a "Search" input field.
